

Diskwento Mobile App PH

Your discount checker

Privacy Policy

Last updated: April 2026

Diskwento Mobile App PH ("the App") is developed and maintained by Carlo Corcuera. This Privacy Policy explains how information is handled when you use the App.

1. Information We Collect

The App operates primarily offline and does not require an account. We collect only the following anonymous data when you submit a complaint report:

- City or municipality where the incident occurred
- Establishment name as entered by the user
- Discount type — PWD or Senior Citizen
- Overcharge amount
- Recipients the report was addressed to
- App version and timestamp

No personally identifiable information — including your name, email address, phone number, or device identifier — is collected or transmitted.

2. Information We Do Not Collect

- Name, email, or contact information
- Device identifiers or advertising IDs
- Location data beyond what you explicitly attach to a report photo
- Photos or receipts — these remain on your device only
- Transaction history — stored locally on your device only

3. How We Use Anonymous Data

Anonymous report statistics are used solely to track patterns of PWD and Senior Citizen discount violations across the Philippines, improve the App, and support consumer rights advocacy. This data is never sold or shared with advertisers.

4. Third-Party Services

- Anonymous Incident Reporting — when you submit a complaint, non-identifiable incident data is recorded to help track discount violations nationwide. No personal information is ever included.
- Expo and React Native — the framework used to build the App.
- iOS Mail Composer — opens your device's native Mail app when sending complaint emails. The App does not access your email account directly.

5. Local Data Storage

All transaction history and report drafts are stored locally on your device only using AsyncStorage. This data is not transmitted to any server and is automatically deleted after 2 days.

6. Children's Privacy

The App is not directed at children under 13. We do not knowingly collect information from children.

7. Changes to This Policy

We may update this Privacy Policy from time to time. Changes will be posted on this page with an updated effective date. Continued use of the App after changes are posted constitutes your acceptance.

8. Contact
